

RISE ABOVE YOUR RISK

EMERGING RISKS — COMPLIANCE CHALLENGES

Each new service, operational change, regulatory update, and technological advance means you face a new risk. To assist, our Bond policyholders have access to a proven team of Risk & Compliance Consultants dedicated to working with you and peer credit unions so you don't fall victim to emerging risks and compliance challenges.

By analyzing exclusive insights, experienced Risk Consultants proactively support your risk management efforts by sharing guidance and best practices through resources and consultations.

Risk Consultations occur through Q&A discussion, a review of relevant policies / procedures, or a deep-dive analysis which can include policy and procedure review or interviews with key credit union staff and management. Whatever it takes to help you manage your most pressing risks.

You'll also have access to relevant resources including the Protection Resource Center, RISK Alerts, checklists, risk overviews, training modules, webinars, Bondability verification, and online assessments to help you keep ahead of emerging risks.

Contact a Risk Consultant for help in key risk areas within your core credit union functions:
